Silchar 4.—Includes a cantonment population of 770 (males 635 and females 135).
 Cachar 5.—North Gauhati was excluded from the Municipality in August 1891. The population of North and South Gauhati was:—1901 14,244; 1891 10,817; 1881 11,695; 1872 11,492. The figures in brackets show the variations which would have taken place had there been no change in the boundaries of Gauhati.

Dibrugarh 4.—Includes a cantonment population of 1,247 (males 900 and females 347).

Kokima 4.—Includes a cantonment population of 2,191 (males 1,469 and females 722).

Shillong 4.—Includes a cantonment population of 1,456 (males 1,217 and females 240).

Imphal 4.—Includes a cantonment population of 7,153 (males 5,449 and females 1,704).

Total 15,199.—The total of males and females for 1872 differs from the total population for that year, as the distribution of population by sex is not available for six towns.

Total 11.—This column does not represent the difference between the urban population of 1881 and 1901, as the figures for 1872 are not complete. The sum of the variations in those cases in which it is possible to make any comparison alone is shown.

The area of the Barpeta and Sibsaigar towns was reduced between 1881 and 1891, and the figures for 1881 corrected accordingly. Similar corrections have been applied to the figures for 1872, but it is not known where the figures for Barpeta were obtained, as they are not recorded in the Bengal Census Report for 1872. The figures for Silchar, Goalpara, and Dibrugarh for 1872 are taken from the Census Report for 1881. It is not known where Mr. Driborg obtained these figures, and there is good ground for questioning the accuracy of those for Goalpara and Dibrugarh.
